SEPW QFRs 03.22.2012 - OECA 61 & 65 - 02.11.2013 v3 Rev no Dimock.docx

Thanks, Susan.

We have since incorporated OSRE's comments, made further revisions following additional Region 6 comments, and we have added the second "s" to "dissolved." We have sent the revised version to Steve. The revised version without the substantive Dimock information is attached below.

Please contact us with any questions.

Thanks --

Tim

This looks fine to me.

I think the word dissolved in the first Parker para. is missing an "s"

Thank you for your hard work under time pressure.

Susan

Subject: Due Monday, February 11th, Fw: fracking Questions for the Record coming your way - OECA LEAD RESPONSES FOR YOUR REVIEW

Susan:

We are still waiting for final comments from OSRE, but in the interest of time, we are sending you the proposed OECA responses to Inhofe Questions 61 and 65. Please note that we removed the substantive Dimock discussion from the attached document. Accordingly, and in the interest of time, we also sent a separate message with the complete proposed OECA responses (with the substantive Dimock discussion) forward to Steve Chester.

Finally, OECA was asked to review the proposed responses to Inhofe Question 60.a (ORD lead) and Vitter Question 5 (OGC lead). I had no concerns or comments regarding ORD's proposed response (with Region 8 input) to Question 60.a. In addition, I commented on OGC's proposed response to Vitter Question 5, and OGC indicated that it would revise its proposed response in light of the comment. (I can forward you that e-mail chain if you would like.)

Please contact us with any questions, comments, or concerns.

Thanks --

Tim
